

Save money

Consume less energy

Use less water

Use fewer resources

⇒ Better indoor environmental

U.S. GREEN BUILDING COUNCIL

$\frac{RO=2.0\%}{6}$ savings on energy and water

increase in employee productivity

35% less absenteeism

AS COMPARED TO CONVENTIONAL CONSTRUCTION.

LEED and clean air

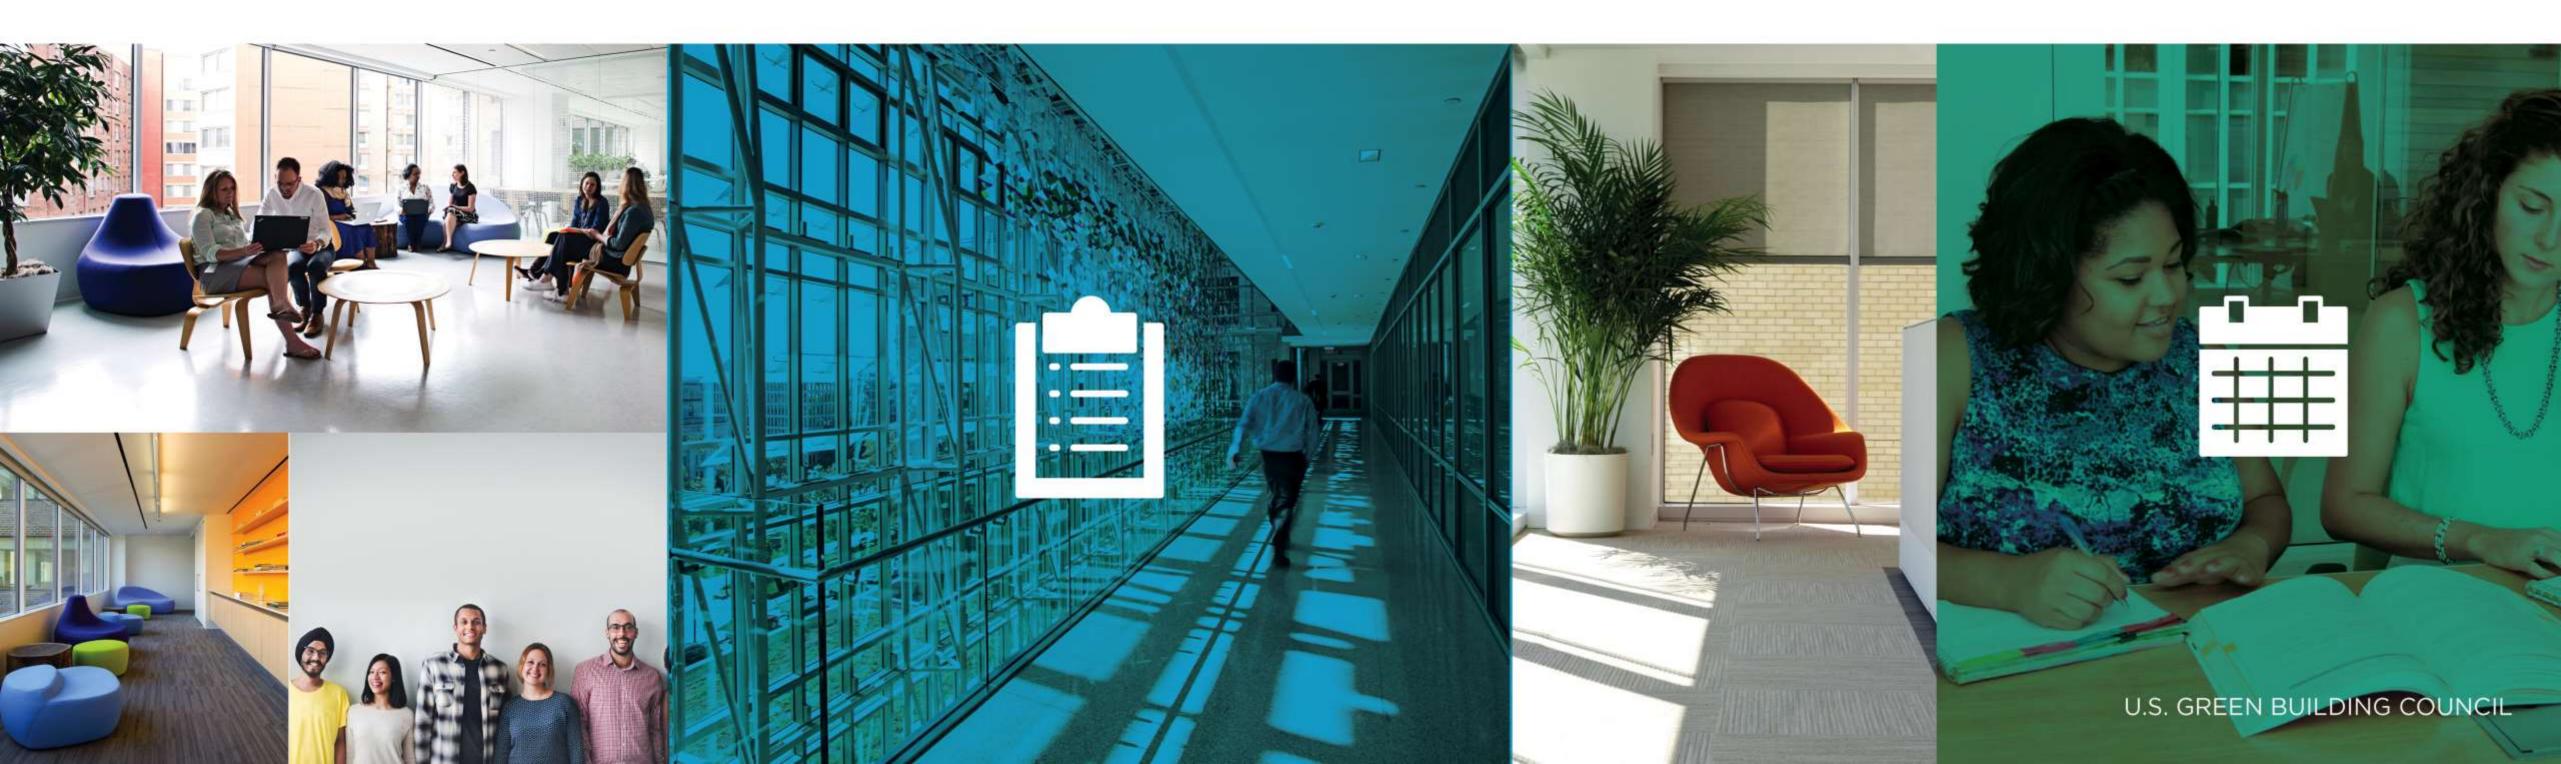

Outdoor Construction IAQ planning

<u>Indoor</u>

Smoking, emissive materials, LCA materials, controls, assessment, interruption, fresh air

Studies have found a positive correlation between **improved indoor environmental quality** and **human health**, **productivity and attendance**.

Staying ahead of environmental regulations & insurance requirements means

avoiding sick building

ISSUES.
