Clean Cities Website: <https://cleancities.energy.gov/coalitions/>

About South Shore Clean Cities

Successes

- In the last decade, South Shore Clean Cities members have reduced greenhouse gas emissions by **607,000 tons** and displaced over **93 million gallons of gasoline**.
- In 2020 alone, South Shore Clean Cities' members were awarded **\$9.3 million** in grant dollars with our assistance.
- **\$5.3 million** awarded for VW Mitigation funding in 2020.

Indiana Green Fleet Program

South Shore Clean Cities works with and guides over **176 municipal, county, school & university member fleets** to help mitigate barriers preventing the adoption of alternative fuels and advanced technology vehicles while creating policies supporting petroleum and vehicle-emission reductions.

Becoming a Green Fleet

- Educational opportunities including fuel and technology workshops, trainings and seminars
- Recognition and certification for fleet leaders who have taken steps to improve environmental performance and efficiency
- Branding and promotional tools to help fleets leverage their earned certification status
- Informational resources including current technology options, market conditions, laws and incentives
- Connections with vendors offering alternative fuel vehicles, equipment, conversion incentive programs
- Professional consultation including fleet assessment and emissions quantification

Michiana Area Council of Governments

2020 Achievements

SSCC secured a materials recovery facility upgrade for Recycling Works through the IDEM Recycling Challenge grant.

SSCC secured CNG plow/dump trucks for the City of South Bend, clean diesel school buses for Penn-Harris-Madison School Corporation, CNG ready mix truck repowers for Ozinga Ready Mix, CNG transit buses for South Bend Public Transportation Corporation, and propane school buses for Wa-Nee Community School Corporation through VW onroad & nonroad funding.

SSCC secured Level II chargers through the VW funds in 2020. The stations will be located in Culver, Elkhart, Goshen, Mishawaka, Plymouth, South Bend and Warsaw in the MACOG region.

Through the Green Fleet program, MACOG & SSCC secured a total of **\$2.3 million** in grant funding.

Funding Opportunity

Applications Due June 1, 2021
